## Differencés

The hide-a-bed sofa and glider recliners embrace you as you delight in the optional fireplace or watch your favorite television program on the LCD TV. A full video and audio entertainment package comes standard

The freestanding dinette table and chairs with in-seat storage providfunctionality as you enjoy meals or chat with friends

The hand-crafted, rich wood adjustable sliding pantry hold all

The eight-cubic-foot refrigerator, microwave, 22-inch oven and three-burner cooktop with piezo

### Extra Mile Differences

### **Newmar Builds Walls and Roofs**

residential-style with studs located 16 inches on-center. Extra C-channel aluminum studs and extra welds may cost more, but they provide a superior wall structure. Stud construction also allows for residential-style wiring and conveniently located

switches. Walls and wall studs are then bonded with a technologically advanced adhesive, Sikaflex®, that is durable and flexible to absorb and soften the effects of travel.

Subject: Luxury Suite on Wheels

I wanted to tell you about our travels, well, really about our Cypress. This coach is so beautiful and comfortable. The bedroom suite is just that - a suite. I feel like I'm staying in a luxury hotel every night.:) The quilted bedspread with matching shams, all-wood vanity and mirrored closet doors make this even better than my bedroom at home! Catching Z's has never been so easy. Now if we could just find a way to keep the kids from taking over our bed!

Hope you're doing well,

Compose Sent Mail Get Mail

The bath area features a onepiece fiberglass shower with molded seat and privacy rain glass, a Create-A-Breeze vent hardwood edging.

# The Difference is Comfort

32RKSH shown with Quartz décor and Baltic Beech cabinetry. Headboard shown below is part of the Cyp

## Extra Mile Differences

The Total Comfort® Dual In-Roof Ducting System was engineered by cooling experts especially for

Newmar. With multiple strategically-placed vents, the system provides true central air conditioning for unparalleled cooling efficiency, balance and whisper-quiet

### wmar does things differently.

Extra Mile Differences Look for the **EMD** emblem to

...the whole happy family! Compose Sent Mail Get Mail The warm ambiance invites you to relax among the carefully chosen hardwood fascias, pleated day/night shades and fabric headboard. Before turning in, watch some TV on the optional 19-inch LCD screen.

## A Difference in Quality

Your Cypress fifth wheel reflects Newmar's long history of product innovation and industry "firsts." You can depend on the exacting standards and meticulous care by which this fifth wheel is built. It's a showcase for Newmar value.

- O. BriteTFK™ Roof
- P. Walkable Roof Decking
- Q. 16" O.C. Aluminum Roof Rafters
- **R.** Side Awning

### **Newmar Express Limited Warranty**

As proof of our commitment to you, we at Newmar back every Cypress fifth wheel with our industry-leading, one-year Newmar Express Limited Warranty. Ask your dealer for details.

### The Limited Five-Year Structural Warranty

If any part of your Newmar recreational vehicle superstructure (which is the steel/aluminum structure of the sidewall, roof or frame) fails to perform properly within five years, from the date of purchase, due to faulty workmanship or material supplied by Newmar, it will be repaired without charge for either parts or labor by Newmar. This structural warranty is available only to the original purchaser and is nontransferable.

The Cypress front cap has been redesigned to provide easy towing with short-bed trucks as well as standard-bed trucks, allowing for a 60-degree turning angle while maintaining its pleasantly streamlined look.

- WG. Vinyl Overlay

- 1. Expansive Pass-Through SuperStorage™ Area is heated and lighted. It boasts a handy cargo hook, three-way access and optional pullout storage tray. It also provides access to the separate utility compartment and houses the water pump for sound isolation.
- 2. Manually-Operated Sliding Porch with triple step and handrail is available as an option. It provides a wider platform for safety and stability entering and exiting the coach.
- 3. Optional MOR/ryde® Pin Box absorbs jolts between the fifth wheel and the truck, and acts as a cushion to significantly reduce the effect of chucking and road shock, providing a smooth and comfortable towable experience.
- 4. The Optional Carefree® 12-Volt Travel'r Power Side Awning extends or retracts effortlessly in less than 20 seconds with the simple touch of a button!

An Incomparable Superstructure, the Cypress Chassis is designed and built by Newmar with stronger steel, extra reinforcements and additional welds to make it exceptionally robust. The huge 12-inch steel I-beams provide superior Moment of Inertia (stiffness) and Section Modulus (bending stress) over smaller, thinner I-beams and stacked tube steel.

Engineers take advantage of the entire height of the I-beam to attach full 12-inch steel outriggers for extended stability and strength. Many other outriggers are partial height. Newmar believes that a home on wheels should start with a solid and stable foundation.

## Interior O Coptions

The Newmar-Originated Slideout, with its 2x4 steel rails and massive reinforcement, is the strongest, most reliable and most durable on the market. A superior-strength platform results from welding hefty guide rail tubes to both mainframe rails and welding extra reinforcement into the system. Closedchannel frames keep small animals and outside debris from entering the coach.

Built-In Booth Dinette with (2) Drawe option available on all models.

Fiberglass Tub with Glass Door option available on most, not all, models.

King-Size Bed available on all models except 32CKAH, 35KSAH & 39CKDB.

Newmar Pioneered and has a Patent on the Flat-Floor Slideout. Sliding a room in and out poses some out-of-the-way engineering and sealing challenges to do it right. Newmar developed an improved slideout wedge roof design that forms a tighter closure when the roof is extended. A specially developed double-bulb, superior-memory seal provides protection from outside elements and insects, and sweeps off debris on room retraction.
